

Hello Marcus, I hope all is well and business is good.

November has been a hectic month for PVS. **PVS Finance** is busy helping clients with new acquisitions and guiding them through Covid finance related issues. **PVS Fleet and Innovation** are helping clients with fleet efficiencies and 'alternative fuel' vehicle options...  
...and **PVS Development** is supporting clients with sales & marketing advice during these difficult times.

You can read more below but please remember we are just a phone call away.

Marcus Puddy

Are you looking at an **Alternative Fuel Vehicle Strategy**?  
Then you will need to implement a 'vehicle transition strategy'  
to ensure you meet the ever increasing regulation and legislation.

If you are thinking about purchasing a single vehicle or increasing the size of your fleet, and you require the vehicle from the 1st March 2021, you need to **take action now**.

Call Paul 01278 550 270

### PVS e-Data Integrity

A 'Fleet Management Interface' that allows users the ability to access and analyse fleet data in order to identify anomalies in vehicle operating costs and forecasted residual value.

## PVS Consort

The PVS Group UK recognises that engaging with an unknown organisation to provide important fleet advice/consultancy is a big decision for any organisation. PVS Consort is designed to offer 'No Risk' engagement terms for the client.

The only benefit to PVS is when tangible and agreed savings are made, at which point both parties benefit.

### Capital allowances £1m 'Annual Investment Allowance (AIA)' extended to 31 December 2021

#### What Is the Annual Investment Allowance (AIA)?

The Annual Investment Allowance (AIA) is a form of tax relief for British businesses that is designated for the purchase of business equipment. The AIA allows a business to deduct the total amount of qualifying capital expenditure up to a certain limit from its taxable profits in a given tax year. This allowance is earmarked for the purchase of business equipment, primarily tools and machinery.

- Businesses can continue to claim up to £1 million in same-year through the Annual Investment Allowance (AIA) for capital investments in commercial vehicles, plant and machinery assets until 31 December 2021.
- Reduce your potential tax liability - Accelerate your planned capital expenditure and offset 100% of the capital cost against your taxable profit?
